

## ADVANCE NEUROLOGY VETERINARY SPINAL MANIPULATIVE THERAPY

### KNOW WHY...AND UNDERSTAND HOW!

Are you interested in being the best of the best and understanding the what, how, why, when and where of Veterinary Spinal Manipulative Therapy (VSMT)?

Would you like to understand how VSMT affects the patient at a cellular, local, segmental and supra-segmental levels?

Would you like to exponentially improve your results when providing VSMT to your patients?

Would you like to be able to explain to your clients and peers how you can help and why patients get better?

If you answered yes to any of the above questions, then you will benefit from attending the Advance Neurology Program that will be presented at the Healing Oasis Wellness Center in Sturtevant, WI.

The Advance Neurology program has been designed to present the most up-to-date information as it relates to functional neurology and Veterinary Spinal Manipulative Therapy (VSMT).

**All modules are designed to present a primary topic and to also have hands on section (both small and large animals) as well as classroom practicums. Advanced techniques will also be taught and reviewed during the modules and class participation will be encouraged. Case presentations will be used as a learning method to solidify the knowledge that has been presented during the module.**

All modules will be presented by **experts in their field** ranging from different chiropractic and veterinary medical school faculty to private practitioners and well known international speakers.

[www.healingoasis.edu](http://www.healingoasis.edu)

The Healing Oasis Wellness Center is committed to providing the most comprehensive program (both didactic and practical) in advanced functional neurology as it applies to VSMT. There are no other program(s) that can compare to the content and method of presentation.

**The entire length of the program is 12 modules and can be taken in sequence OR as an individual continuing education segments.**

**The Healing Oasis Wellness Center is nationally accredited by the Accrediting Council for Continuing Education and Training which is recognized by the US Department of Education and all of the programs offered at the school have been approved by the Educational Approval Board of the State of Wisconsin and other National Associations**

## Know why... and Understand How!

The next advanced program in functional neurology is scheduled to start **Feb 6-8<sup>th</sup>, 2009** at the Healing Oasis Wellness Center facilities in Sturtevant, WI.

The first seven (7) modules will be presenting the core information. The following five (5) modules are meant to expand even further on the previous information by special guests and experts who will build on the integration of **functional neurology**.

### Some of our speakers includes:

Rodney Bagley, DVM, DACVIM (Washington State University), Shauna Cantwell, DVM, DACVA., Gregory Caremer, DC, PhD (Dean of Research, National University of Health Sciences), Carl DeStefano, DC, DACNB., Douglas Gould, PhD (Professor Ohio State University), Sue Ann Lesser, DVM., John Nolte PhD (University of Arizona) among others.

***The quality of presenters and ground breaking program is second to none! You will not find such an array of speakers and experts in any other program or university teaching you about functional neurology!***

The program will be presented using several learning methods to cement and emphasize the recently gained knowledge. Didactic, hands on and webinars are among some of the methods to be used.

Who will benefit from attending this program? Instructors teaching at the basic level, those licensed professionals that would like understand the intricacies of the services that they are providing to their patients!

***Veterinary Spinal Manipulative Therapy is at the crossroads. It is our job to understand how VSMT works; why it works; when to use it and lastly how to use it to benefit our patients and improve their health!***

***It is our belief that doing less, will keep our profession "thumping on the high side" and in the "dark ages".***
